

CONTINUING IAC EXPLOITATION NEEDS FROM EXPLOITATION  
OF FOREIGN LANGUAGE PUBLICATIONS BY FOD

As a result of NSCIB-16, FDB/CIA has a primary responsibility to undertake the exploitation of foreign-language publications so as to meet the needs of the various offices of the intelligence community. Some or all of these needs may already be met by existing facilities within or under the jurisdiction of the offices concerned or by other means. It is the objective of the NSCIB-16 Exploitation Subcommittee to determine which of these needs are already met and which remain outstanding. From this determination the Subcommittee can then recommend to FDB/CIA where it should best place its effort on a continuing basis. Accordingly, in answering the following questionnaire you should keep in mind (1) only the collection of information from foreign-language publications is involved; (2) needs for information adequately answered by existing facilities should be eliminated; (3) other needs for information on a continuing basis are what should be spelled out, recognizing that "spot" needs must be handled on an ad hoc basis as they arise.

AGENCY: State \_\_\_\_\_ Army X Navy \_\_\_\_\_ Air \_\_\_\_\_ CIA \_\_\_\_\_ NSA \_\_\_\_\_

Please indicate the priority of need in each category and subcategory by numerical sequence and no need by "0." Indicate also the type of reporting you desire as follows:

AD - Abstract  
EX - Extract  
☒ S - Summary  
COM - Compilation  
☒ COL - Collection

and the frequency with which you wish the reports issued:

W - Weekly  
B/W - Biweekly  
☒ M - Monthly *Political*  
☒ Q - Quarterly *Other*  
S/A - Semiannually  
A - Annually

[Thus "1/S/M" would be first priority in summary form issued monthly]

1. Country on which exploitation of foreign language publications is needed:

Greece

Turkey

Iran

|            |          |      |
|------------|----------|------|
